PROFILE

I am always eager to learn new technologies and strive for clean, maintainable code. I have experience working on various projects, such as educational apps, earning platforms, and ad-integrated solutions, with a focus on optimizing performance and enhancing the user experience. Whether it's developing native-like mobile experiences or working on backend API integrations, I am committed to delivering high-quality results that meet project requirements and timelines.

MY ACHIEVEMENTS

- Spearheaded the development of an educational app with over 3,00,000 active users.
- Implemented Google AdMob for monetization, achieving a 20% increase in revenue.
- Enhanced proficiency in managing Google Play Services, troubleshooting integration errors, and using Firebase for real-time database management.
- Strengthened problem-solving skills through handling complex UI/UX requirements and backend issues independently.
- Translated and localized a mobile app into Hindi and Gujarati, expanding the user base in targeted regions and improving engagement by 20%.
- Delivered a complete Flutter app from concept to deployment in under two months, meeting tight client deadlines while maintaining high code quality.
- Designed and implemented a complex custom UI using Flutter's Widget library, achieving pixel-perfect designs and improving user satisfaction.
- Developed and integrated custom APIs for seamless data flow between mobile apps and backend services, improving app stability and reliability.
- Led a cross-functional team in integrating payment gateways (Stripe and Razorpay) into mobile apps, streamlining transactions for users.
- Successfully integrated real-time chat functionality using Firebase Cloud Firestore, increasing user engagement by 25%.

- Implemented a user onboarding experience with in-app tutorials and personalized recommendations, resulting in a 25% increase in user retention within the first 90 days.
- Developed custom animations and transitions, giving the app a unique and smooth user experience that received positive feedback from users and clients.
- Integrated push notifications using Firebase Cloud Messaging, increasing app engagement by 35% by delivering timely and relevant notifications.
- Redesigned several app components to meet WCAG standards, making the app more accessible to visually impaired users and improving usability.
- Delivered a fully functional Flutter app from concept to deployment within two months, exceeding project deadlines.
